Without a roll call the senate Monday agreed to a motion to strike out the wording of the Kenyon-Shepard liquor bill and to substitute and pass the Webb bill, which passed the house on Saturday. The Webb bill simply makes unlawful the shipment of liquor into states, for purposes forbidden by the laws of the states into which the shipments are made. It was passed again by the House Tuesday to correct a technical defect.

Senators Root, Sutherland and Paynter, all noted as constitutional lawyers, opposed the Webb bill on the ground that it is unconstitutional. The President is said to believe the measure unquestionably is unconstitutional, and that its passage by Congress simply shifts the burden of responsibility for its final defeat from the shoulders of politicians to the Supreme Court.

With marked money, five Republican members of the West Virginia Legislature, were caught red handed accepting bribes in the Senatorial contest amounting to \$20,000, U. S. G. Rhodes getting \$15,000 of the money. All were put under heavy bonds. Democrats are supporting Senator Watson. The Legislature is Republican.

Tobacco Situation in Hopkins.

Madisonville, Ky., Feb. 10.—At a meeting of the members of the Stemming District Tobacco Association of Hopkins county held here Saturday afternoon strong resolutions were adopted asking the Executive committee of the association to refuse to accept any sum less than eight dollars per hundred for the 1912 pooled crop. It was understood that the association had sold ten million pounds of the crop at Henderson at 7 cents, and the sentiment of the members here was that this was entirely unsatisfactory and they asked in the resolutions that the matter be submitted to a vote of the membership before the sale is made.

REACHED
HIS GOAL

Explorer Scott Found the South Pole Only To Perish in Blizzard.

ENGLISHMAN HEARD FROM

Was a Month Behind Amundsen, Whose Flag He Found Planted.

London, Feb. 10.—Capt. Robert F. Scott, the Antarctic explorer, and four of his companions on his dash to the South Pole, perished on their return journey from the pole, which was attained Monday, January 18, 1912. Official announcement of the catastrophe which overtook Capt. Scott's expedition, was made at a meeting of the Royal Geographical Society here tonight.

It was announced that Capt. Scott, Dr. E. A. Wilson, Lieut. H. R. Bowers, Capt. L. E. G. Oates and Petty Officer Evans, had perished.

The news of the death of the explorers came in a brief dispatch from Lieut. E. R. G. R. Evans, of the royal navy, who was second in command when the expedition started, and who now signs as "commander" of the expedition.

A searching expedition recovered the bodies and records of the party. Capt. Scott's party found Capt. Roald Amundsen's tent and records at the South Pole. On the return trip, about March 29, 1912, eleven miles from One Ton Depot a blizzard overwhelmed them. They had suffered greatly from hunger and exposure, and the death of Scott, Bowers and Wilson virtually was due to that. They died soon after the blizzard swept down on the party.

Oates died from exposure March 17. The death of Evans resulted from a fall Feb. 17. The other members of the expedition are reported to be in good health.

"SECOND JESUS CHRIST"

Jailed For Deluding White Women in Evansville.

Wilson Johnson, a negro "healer" was released from the Evansville jail last week, where he had been placed by an order of the city judge, for nonpayment of a fine for "promoting the mingling of the races." The fine was paid by Joel Fort, of Robertson county, Tenn. Mr. Fort's father owned Johnson's mother, who claimed to possess occult powers and that she passed them to her son. When the jail doors opened to let Johnson pass out to liberty 50 white women were waiting in the jail yard to welcome him, whom they believed to be a divine healer. From his infancy Johnson's mother had taught him that he was a second Jesus Christ and the 50 or more white women who met him at liberty's door believed the same thing, claiming that he had wrought cures for their families and friends. He was quite successful in Evansville but took his departure for Cleveland, Ohio, as soon as he was released. Some of the white women threatened to follow him.

Noe, insurance man; Robert Lauder, a mechanic in the employ of the Louisville & Nashville railroad.

Lee Hopkins, by her next best friend, James Hopkins, has entered suit against the Tennessee Central Railroad Co. for \$199, alleging damages to that extent. Plaintiff states that one day in December last she purchased a ticket to Fidelity and that same was taken up by the conductor, but the train failed to stop at her destination and she was taken more than a mile beyond the station. She further alleges that when the train was stopped she was roughly ordered to get off and "hike it back to her station." She says she was compelled to walk back through a driving snow and in doing so, hurt and bruised her feet, causing her physical pain, etc.

A driver of one of J. T. Garnett's teams had a saddle stolen from his mule at the Regie factory yesterday morning. The man was in the building warming and when he came out the saddle was gone. It was worth \$4 or \$5. The police are working on the case.

LAYMEN'S MISSIONARY MOVEMENT CONVENTION

LAYMENS MISSIONARY CONVEN-
TION IN MEMPHIS WILL AT-
TRACT THOUSANDS.

MANY PROMINENT SPEAKERS

City of Memphis is Making Great Pre-
parations to Entertain Visitors
to Laymen's Convention.

Memphis, Tenn., February 11.—
(Special).—The reports that are com-
ing in to the local committees indi-
cate a record attendance at the Lay-
men's Convention to be held in this
city February 18-20, 1913.

Memphis is making great prepara-
tions for this gathering of the lay-
men from all over the South. Repre-
sentatives will come from as far east
as Baltimore, and as far west as New
Mexico. It is expected that the con-
vention auditorium will be taxed to its
utmost capacity. To provide for the
crowds expected and for the benefit of
friends in Memphis auxiliary meet-
ings will be held in a church jus-
t across the street each evening.

The Laymen's Movement.

It will be recalled that this move-
ment began in a prayer meeting of
business men in New York City on
November 15, 1906. It is a movement
of the business men of all Protestant
churches, who realize that it is the
whole business of the whole church
to preach the whole gospel to the
whole world, and who have banded
themselves together to accomplish
this task in our generation.

It is not a new missionary society,
nor does it send out missionaries. It
collects no funds and administers
none. It is a movement to enlist the
farmer, the business and professional
man—the money makers—in the mis-
sionary campaign by arousing their
interest and directing their energies,
their prayers, gifts and services to
the evangelization of the world. And
this it aims to do through the regu-
larly established agencies of the
church.

It seeks to gain for the kingdom
that ability and acumen, which have
made this country to roll in wealth,
in order that the King's business
may be aggressively and adequately
conducted to completion.

The officers of the Southern Pres-
byterian branch of the movement
are:

Mr. Charles A. Rowland, Athens,
Ga., chairman; Br. H. W. Malloy, Co-
lumbia, S. C., vice chairman; Dr. M.
McH. Hull, Atlanta, Ga., recording
secretary; Mr. H. H. Linton, Athens,
Ga., treasurer.

The conventions of the movement
have been marked by great power in
the past and the present convention
is expected to be no exception.

Many Distinguished Men.
Seldom have so many prominent
men been gathered together as will
appear at this convention. A number
of special features have been arrang-
ed as will appear below:

Rev. Thornton Whaling, D. D., Presi-
dent of Columbia Seminary, will
speak on a most vital question
"Home Missions, A Life Work."
While the address will be given be-
fore the special conference for sem-
inary and college students, all are
invited to hear this address, which
is to bring this question before our
students as an appeal to consecrate
their lives to home missions as the
volunteer does for the foreign field.

Rev. Reuben L. Breed of New York
City will deliver a very unique ad-
dress on "How the Immigrants Ar-
rive at Ellis Island." Eight per-
sons will dress in costumes of as
many nationalities and will appear
before Mr. Breed, who imitates a
United States inspector. Some
will be admitted, others deported.
In addition Mr. Breed brings a
splendid exhibit to illustrate work
being done by the various churches
for the immigrants.

Mr. E. C. Branson of the Georgia
State Normal will speak on "The
Country Church." Professor Branson
has the honor of occupying the
first chair of Rural Economics es-
tablished in an American institu-
tion. He will bring facts and fig-
ures, the results of years of study.
He has reached the conviction that
any permanent betterment of rural
conditions must be centered around
the spiritual life and its develop-
ment.

The Golden Seminary Quartet of Rich-
mond, Va., composed of Messrs. P.
S. Carter, C. B. Craig, W. T. Mann
and R. V. Lancaster, will lead the sing-
ing at the Memphis convention.
Those who have attended former
conventions will recall how greatly
this quartet has contributed to the
singing. They will render special
music at every session, and also at
the special conference for students
on Thursday morning, February 20.

Dr. Stewart R. Roberts of Atlanta,
Ga., will speak on the social evil in
our great cities. A recent medical
authority says: "Tuberculosis, alco-
holism, syphilis have been well de-
scribed as the three great plagues
of modern society, but while we
have crusades against tuberculosis
and alcoholism, the greatest of
these plagues, syphilis is neglected
and tabooed." Doctor Roberts will
not avoid this subject, but will face
it with the manly frankness which
it deserves.

Rev. William R. Dobyns, D. D., of St.
Joseph, Mo., will present in a series
of addresses the vital question of
"Individual Work for Individuals."
This is what is needed today. The
figures show that over 1,600 churches
in our denomination had no ac-
cession by profession last year.
This must be changed. These ad-
dresses will be searching, yet prac-
tical. We will be disappointed if
many are not led to make soul-win-
ning the business of their lives.
Why not?

Important to Delegates.

Remember this is the first time
men have ever met in the South to
consider exclusively the "Home Prob-
lem" and for this reason you should
be present. Memphis is proud to en-
tertain this convention and will dem-
onstrate to the South that she is the
ideal convention city of the South.

on negro work. Facts will be given
at this conference that will make it
possible for any congregation to start
a work for the negro in his com-
munity.

The women's conference has been
arranged to consider "The Missionary
Society in the County Church," and
it is hoped that this special gathering
of the women will do much to help
them in their work. The post-conven-
tion conference on evangelism Friday
morning, February 21, should be at-
tended by some one out of every dele-
gation. The purpose of this confer-
ence is to plan for a great advance
throughout every presbytery.

WHO ARE EXPECTED TO ATTEND

Evangelists.

To those who are constantly dis-
pensing the word and giving out spir-
itual help, this is the opportunity to
have their heart filled with food, and
in the strength of which they shall
go for many adys.

Leaders in Women's Societies.
Our church is today opening a great
and effectual door to all the women's
societies. They will need trained
leaders in their work. A special sec-
tion in the gallery will be reserved
for women delegates.

to those who face peculiar difficulties;
to those who need revival; to all who

**For Ed C. Gray, Who Took Car-
bolic Acid By
Mistake.**

SAVED BY QUICK ACTION

**Bottles On Shelf In His Office
Got Mixed Up And
Caused Mistake.**

Ed C. Gray, the liveryman on East Ninth street, came near taking his own life yesterday, about noon, under the following circumstances:

Mr. Gray had been taking a certain kind of medicine for some ailment and kept it on a shelf in the office of his stable. About noon, while two or three of his friends were in his office, he took down a bottle from the shelf, after having filled a glass with water, and poured the medicine into it and swallowed it. As soon as he had drunk it the end of his tongue burned so that he looked at the bottle and found he had taken carbolic acid. He rushed into Blythe's drug store and asked how much carbolic acid would kill a man. Mr. Blythe told him a teaspoonful. Mr. Gray then said, "I have taken a teaspoonful and a half and you had better pump it out." Dr. F. P. Thomas was called at once and he had Mr. Gray to first swallow three or four raw eggs and then applied the stomach pump. In a few minutes the poison was extracted and Mr. Gray was all right at 10 o'clock.

One of the hostlers about the stable had been using carbolic acid in treating a horse and had put the bottle alongside the one which contained Mr. Gray's medicine. The contents of the bottles were the same color and it was easy for Mr. Gray to make the mistake.

Mercer Park will be ready for their reception by March 1st, some repairs being necessary.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Sent for circular free. P. J. CHENEY, & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

HORSES RAN AWAY

And Fell At Ninth and Main Without Injury.

The two large horses that draw the delivery wagon of the Hopkinsville Mills became frightened on Ninth street, east of the L. & N. railroad yesterday and ran off. They ran down Ninth street and at the corner of Main one of them fell. One hind wheel was left standing on the side walk, as the horses had broken loose from the wagon when the first horse fell. The other animal kept on going until he got to the opposite corner when he also fell. Both animals were "assisted to their feet" and no damage was done except the breaking of the harness.

Six persons were killed and sixty-five injured in political riots at Tokio, Japan. The mob attacked and wrecked newspaper offices and police stations, stoned Premier Katsura and the police guarding the Diet. Troops patrol the streets.

Imperial Indicted.

A grand jury at Henderson returned an indictment against the Imperial Tobacco Company of Kentucky and the Imperial Company of Great Britain, charging conspiracy to depress the price of tobacco below its real value.

Another Cold Wave.

The mercury took another drop yesterday morning, standing at 12 degrees at 7 a. m. This cold wave was predicted the day before and got in on time.

BROKE IN ON THE APPEAL

Representative's Carefully Prepared Peroration Apparently Lost on the President.

Dan R. Anthony, the monolithic member of the house from Kansas, more than six and a half feet tall, and three feet wide at the shoulders, gamboled into the White House the other morning to see the president. Ushered into the president's office at the same time was Representative Samuel W. Smith of Michigan, who weighs probably ninety-three pounds when clad in his heavy ulster. It was an odd-looking gathering—the huge president, the colossal Anthony and the diminutive Smith. Anthony plunged at once into the matter he had come for—an appointment he wished to put through. He talked with much earnestness for four or five minutes while the president stared up at him like a man looking for a pigeon on top of the Metropolitan tower. As he came to his peroration, Anthony worded his sentences with extra care, and tried to make every phrase count. He was within sight of his final period when the president, who had been staring up at him preoccupiedly, interrupted him by remarking, irrelevantly and almost in alarm:

"Why, Dan, your hair's actually getting thin, isn't it?"

RELIEVING STRAIN ON EYES

Use of Ice or Cold Water Compress Is Recommended When Unusual Work Has to Be Done.

When you are compelled to subject your eyes to severe and continued strain it is well to have within easy access some ice, or some very cold water. If the eyes ache and throb make a little compress of cracked ice and lay it over the eyes. Remove it when the eyes become too cold. There will be a reaction, the blood rushing back to the organs. When this occurs, the compress may be laid on again. If ice is not obtainable, the cold-water treatment, during which time the mind is utterly relaxed, so as to rest the nerves, will return you to your work greatly refreshed. Sometimes the difficulty is centered more in the nerves than in the organs of sight; hence the advisability of the five minutes' rest and relaxation, with the eyes closed.

ZERO.

The word "zero" is from the Spanish, and means empty, hence nothing. It was first used on a thermometer in 1795 by a Prussian merchant named Fahrenheit. From a boy Fahrenheit was a close observer of nature, and when only nineteen years old, by experimenting with snow and salt, he discovered what he believed to be the lowest degree of temperature known in the world. He called the degree "zero," and constructed a thermometer with a scale graduating up from zero to boiling point, which he numbered 212, and the freezing point 32, because, as he thought, mercury contracted the thirty-second of its volume on being cooled down from the temperature of freezing to zero.

RECOGNIZED THE DESCRIPTION.

Several tourists, strangers to each other, were comparing notes.

"I am from Bonnie Scotland," said one.

"I am from the Emerald Isle," said another.

"My home is in the prettiest valley in Wales."

"I hail from Australia."

"And my home is in the greatest, the grandest, the richest and the most beautiful land in all the world."

Then the others exclaimed in chorus:

"Well, the conceit of these Americans!"—Youngstown Telegram.

QUALIFIED.

"Have the Swashbys a large income?"

"Oh, dear, no! They live so much beyond their income that nobody has the slightest idea of what they are really worth."

"Hum! Very estimable people, no doubt. We must be sure to have them at our next dinner party."

THEY WILL BURST.

Mrs. Dearborn—What tires are you using on your car?

Mrs. Wabash, parvenu—Oh, gracious! I don't know. Jenkins, my chaffer, attends to that."

"But don't you know the kind of tires you use?"

"Well, I know it's one of the bustin' kind, that's all!"

We have got to make room for our new spring goods, in order to do that we will sell this stock at what it will bring. We are sorry we have offended some of our competitors, because we are selling goods so cheap; but so long as our customers are satisfied, and we settle our bills, we think it is none of their business—and to set at rest the talk that some of them raised that we will leave here soon, I want to say to the public that we are here to stay, and if they don't watch, we will be here when some of them are gone. We are here to make an honest living, and to sell our merchandise at a reasonable profit, and not to use extortion on anyone. You run no risk in buying from us. Any thing you buy, if not satisfactory you have but to tell us, and we are ready to right same. Continue to come and see us; we are here to stay. We have had the pleasure of enjoying a nice business since we have been here, for which we are profoundly thankful and appreciative, and we hope to continue the same liberal patronage in future. AMUSEMENTS.

The Grahame Stock Company, now in its ninth year, and known as one of the best popular price attractions on the road, will begin a week's engagement at Holland's opera house next Monday night. During the company's stay in our city a widely contrasting line of plays will be given, ranging from heavy drama and costumed romance to the most farcical of comedies. A special feature of the engagement will be the mounting of each play, the Grahame

show car carrying its own special scenery, new and handsome, a complete equipment for each production. Another big inducement to attend will be a line of excellent vaudeville, from four to six specialties given with each play and entirely changed every night.

The opening bill next Monday night will be "The Stepmother," a happy blending of pathos, sensation and screaming comedy. Prices will be 10, 20 and 30 cents; ladies being entitled to the best seats free on the opening night, if each is accompanied by one paid 30 cent ticket. The number of these tickets is limited, good on Monday night only and must

be reserved in advance before 6 p. m., Monday next. Seats on sale Saturday at Anderson-Fowler Drug Co., Incorporated.

"SKY LEASE."

What is known as the "sky lease" in Cleveland, O., is one of the most curious building space leases ever drawn up. Some time ago a frontage of 150 feet was leased for a term of ninety-nine years, and the lessee erected a six-story shop and office structure having foundations strong enough to carry several additional stories. After the building was completed the owner leased the air space above the sixth floor, and the support of the walls and columns of the six-story structure to the Cleveland Athletic club. The club then added seven stories to the six-story structure at a cost of more than \$500,000. The club pays a fixed annual rental for its "air space," along with the entrance space for the lifts and a space in the basement. The seven top stories are, of course owned by the athletic club, and at the termination of the lease, which will run for about ninety years, the owner of the fee agrees to pay the appraised value of the improvements, or extend the lease for another period of years.

The Boys' Corn Club Boys Are Getting Busy Testing Their Seed Corn

It does seem odd that more farmers and their sons have not done seed testing in the years that have passed and saved themselves any amount of worry and bother and loss of time and money. Last season a number of the boys in the clubs used shelled seed corn that was bought or furnished them and learned to their sorrow that it was poor seed. Their stand of corn was miserable, and at the very outset of the contest their chances for a prize were gone.

Many of the boys in the boys' corn clubs have learned their lesson and are busy these winter days. Some of them are prize winners of other seasons; others are the fellows that have shut their teeth hard and are going to try again. Both kinds are going to test their corn so that there will be no chance of a stand that will have to be replanted.

The boys are using old boxes that can be cut down to the required size or they are making boxes from any old lumber that is lying about the farm to use for their testing boxes. Nothing fine or especially good looking is necessary. Just a shallow box about 10 by 15 inches is all that is needed to test from 100 to 150 ears of corn. These boxes can be made and the corn tested now, while there is no danger of its getting in the way of any of the spring rush work.

The nails which are driven into the edge of the box are an inch apart, so that string may be drawn across from both directions. Each square inch

SPROUTED SEED CORN.

outlined by the strings is enough space in which to plant six grains of corn, and that is enough to determine whether an ear of corn will do for seed or not.

In selecting the grains from each ear of corn that is to be tested remember that a grain should be taken from each of the different parts of the ear. This of course means running from butt to tip and around the entire circumference. As the six grains selected from the ear are placed in the moist earth or sand, mark the square and the ear with the same number so you will know which ears to keep and which to discard.

When your testing box looks as far advanced as the one in the photo it will be an easy matter for you to decide which ears to keep for seed. If six strong, healthy plants come from the six grains planted you have a perfect ear of seed corn. If four have come it is questionable. Less than four means only half a stand at planting time, and the ear must be discarded.

The boys who are members of the boys' corn clubs of Kentucky have made their fathers and their big brothers who thought they knew everything about corn growing sit up and take notice. There is still a chance to teach them the value of the corn tester, so let each and every corn club boy test his seed corn this spring. IF THE BOYS WHO GREW ONE HUNDRED BUSHELS TO THE ACRE THINK IT PAYS TO TEST THEIR SEED CORN, HOW ABOUT YOU?

How One County Is Solving the Sub-district Trustee Problem

The weak or the strong point in each and every rural school in our state is the subdistrict trustee. If a strong, thoroughly interested man is elected everything is well, but if a careless, indifferent man holds the office the school is in bad shape. A good trustee means a clean, comfortable building, a competent teacher and some interest on the part of the general public. A poor trustee means a badly kept building, a second or third rate teacher and a lack of interest by the neighborhood.

Metcalf.

INVITATION ARE EXTENDED

Good Roads Convention Can
Be Held There If De-
sired.

It is very gratifying to Mr. Metcalf to know that his efforts to furnish societies and business organizations with a place for holding their meetings are appreciated. The Daughters of the Confederacy, the Christian County Medical Society and the Blackstone Club have accepted Mr. Metcalf's offer of a free meeting place. His invitation is also specially extended to the D. A. R.'s and the Civic League.

The auditorium holds about 600 people, is heated by steam and is the best lighted auditorium in the city. The young people of both sexes gather at the auditorium at 2 o'clock in the afternoon and pass a great part of their time playing boxball.

Rev. Dr. C. H. Schleh, under the auspices of the Woodmen of the World, next Wednesday night, will lecture. Of course it will be free to everybody, and will no doubt be listened to by a large number of our people.

The Good Roads Convention, to be held here on the 19th and 20th of this month, will be a large gathering, not only of the people of this county but from different sections of this State and Tennessee. Mr. Metcalf authorizes us to extend a most cordial invitation to the committee of arrangements to use the Avalon for all the sessions.

He also wants men's business organizations to know that they are perfectly free to use the Avalon for their meetings. He is not out begging people to avail themselves of his free offer, but he wants to im-

MRS. LIPSCOMB

Elected Librarian For The New Carnegie Library.

At a meeting of the Public Library Board Tuesday night Mrs. Virginia Lipscomb was elected Librarian for one year, the term to begin when the Carnegie Library is completed, supposed to be about July 1, 1913. Mrs. Lipscomb has for several years been librarian for the Hopkinsville library and she is well qualified for the place. She will, however, take a special course of instruction in the new and heavier duties she will be called upon to perform.

press upon the public mind that his auditorium was built for the free use of the people, in the county and in the city.

With the opening of spring he will rush to rapid completion his handsome new block, the greenhouse already being well under way. Since he commenced operations he has had to contend with much unfavorable weather, and under the same conditions, but few people would have forged ahead as Mr. Metcalf has done, often working between the showers during the fall and in the winter choosing a day or two of a week that was not too inclement for building operations. Though he has had to go slow on some parts of the building, that do-something spirit that dominates his life has impelled him to keep things moving when they were not frozen together.

Yesterday morning, which was one of the coldest of the winter, out on the glass-enclosed sun-parlor the temperature registered 65 degrees, and, strange to say, the heating apparatus was not in use. The sun parlor will overlook the big green house, which is now partially completed. The view of the Avalon, which is thrown on the screen at the picture shows every day, gives an exact idea of what the block will be when completed, and there is no need speaking of the interior of the building.

The interior is something that all people will be pleased with when the finishing touches are put on in the spring months. A commodious kitchen, bath rooms and many other features, almost forgotten by the people that Mr. Metcalf has given his word for, are sure to follow.

HOSPITAL PATIENTS

Two of Them Died First Of The Week.

The matrimonial market is rather dull at this time, only five licenses having been issued up to yesterday morning. On Tuesday last licenses was issued for the marriage of Miss Edna Wright and Harry Watts.

Pencil Recreations.

Wednesday was the 104th anniversary of the birth of Abraham Lincoln, but there was no observance of the day here. He died April 16, 1865.

Next Saturday will be anything but a holiday for the post office officials and they will be glad when St. Valentine's day is gone. However they will have a rest on the 22d.

"Uncle Joe" Cannon's farewell dinner, after 40 years in Congress, comes off to-day. For the good of the country it is to be hoped that he may be as long breaking into Congress again as he was in being put out.

Next summer, when the bathing season opens up at Elgewater Park, the young ladies should not forget that long gloves are the latest fad while bathing. They are, really, about the only thing worn that is long.

It seems, from the Journal, that Henderson has a touch of the baseball fever and the fans are talking about building another park. The local fans are slow about getting a move on themselves but Bassett and his Big Stick is behind them.

Winter will soon be over, no matter what groundhog thinks about it. The song of the Red bird and voice of Robin Redbreast is already heard in parts of the city and we had rather trust them than Mr. G. Hog, who hardly ever falls to see his shadow when people don't want him to.

When our farmers become as enthusiastic on the subject of scientific farming as the members of the Fiscal Court, there will be no trouble in getting the Court to buy a piece of land for an experimental farm. That is what will soon be needed if we are able to see things at "a near distance."

Since Dr. Hirschberg, of Johns Hopkins University, tells the world that commercial glucose is perfectly harmless, the sugar refiners might well put a little in granulated sugar, which nowadays seem hardly more than half as sweet as it use to be. Brown Sugar is about the only sweet sugar now on the market.

Push the Button

Drive up in front of our Grocery Department. You will see a new box post standing on the edge of the pavement with an Electric Push Button. Take your whip handle and press the button and a real live clerk will rush out at once, anxious to take your order, and to save you the trouble of getting out, hitching your horse and entering the store. Try it and see how it works.

This principle, "You Push the Button and we'll do the rest," you will find now obtains in every department of our business.

It has been decreed by the National Tailors' Association that women's dresses are to be at least six inches smaller at the bottom this year. The California delegates to the last association contended the other way but in vain. The country badly needs some dressings as well as "a sane Fourth," but New York styles rule in this country, we are sorry to say.

Why shouldn't the B. M. A. make an effort to have the State Druggists' Association hold their convention here this year? There are

about 1,500 druggists in the State and one-third of them usually attend. The pill-makers would be a fine lot of visitors and somebody ought to get busy soon and try to bring them here. We can't begin to advertise Hopkinsville too soon.

Upsets Keys.

Frankfort, Ky., Feb. 8.—Attorney General Garnett has given Auditor Bosworth a written opinion which holds there is no such office as employment agent for the State School of Reform.
